

**FLEX
CAMPUS**
CONNECT AND LEARN ANYWHERE

BY AICLOUD CONSULTING • TEXAS, USA

MULTI-TENANT SAAS
TEACHING & LEARNING PLATFORM

SAAS LEARNING PLATFORM 2026

Your campus. Anywhere.

Flex Campus is Aicloud's **multi-tenant SaaS learning platform**: every school gets its own branded campus, **imports the programs it designs for its students**, and teaches with live classes, hands-on labs and AI-assisted grading — one platform for **teachers, administrators and students**.

Your Own Campus

A private, branded space for your school — your staff, students and data

Import Your Own Programs

Bring the curriculum you designed for your students — or build it in Flex Campus

Learn by Doing

Runnable code, labs, quizzes and real projects in every chapter

AI-Assisted Teaching

AI drafts lessons and quizzes, grades challenges and summarizes classes

"Connect and learn anywhere." Everything a school needs to teach, assess and support learners — plus optional Flex Programs for anyone ready to build a career.

THE VISION

One platform. Every campus.

Flex Campus is built on **Aicloud Academy** — the platform that runs Aicloud's own training at **aicloudsconsulting.com/school**. As a **SaaS platform**, it lets colleges, training companies, bootcamps and corporate academies run their own campus on the same proven system — without building or maintaining software.

PROVEN • AICLOUD ACADEMY

A proven teaching platform

Used to run Aicloud's own programs end to end — from enrollment and live classes to labs, grading, progress tracking and career support.

20 programs

39 tool courses

Live classes

AI grading

FLEX CAMPUS • YOUR SCHOOL

The same platform, as SaaS

Each school gets its own tenant: its own brand, address, imported programs, teachers and students — fully separated from every other campus.

Own branding

Isolated data

Import programs

Per-seat plans

WHY MULTI-TENANT

Built to serve many schools securely

Isolated Data

Each campus's students, grades and content are kept separate, protected by role-based access and row-level security.

Your Brand

Your name, logo, colors and web address on every page your students and teachers see.

Import Your Programs

Upload the programs you designed for your students — AI turns your curriculum into modules, chapters and quizzes.

Always Up to Date

New features and fixes reach every campus automatically — no servers or upgrades to manage.

Enrollment & Payments

Packages, free trials and secure online checkout let students enroll and pay without paperwork.

Scales With You

From a single class to thousands of learners, on cloud infrastructure that grows on demand.

HOW IT WORKS

From sign-up to first class

1

Create Your Campus

Register your school and choose a plan.

2

Brand & Import

Add your logo and colors, and import your own programs.

3

Invite Your Team

Add teachers, teaching assistants and admins with the right roles.

4

Enroll Students

Students sign up, pick a program or tool and start learning.

PLATFORM FEATURES

Everything to teach, learn and grow

Every chapter follows the same proven pattern — learn the idea, try it, practice it, prove it — with teachers and AI supporting each step.

Learn

Guided Notes

Short, visual lesson slides with original diagrams for every chapter, in programs and tools.

Clear, bite-sized lessons

Practice

Try It Yourself

Run real code in the browser — Python, Java, SQL, HTML/CSS/JS and more — in secure sandboxes.

No setup, no installs

Practice

Hands-On Labs

Spreadsheet, SQL IDE, Java, web, data-prep and writing labs that check answers automatically.

Instant, auto-graded feedback

Assess

Quizzes, Exams & Challenges

Quizzes, timed exams and open challenges — challenges are AI pre-graded, then reviewed by teachers.

Fair, fast grading

Live

Live Classes & 1:1 Meetings

Built-in video classrooms, recordings, AI class summaries, and bookable one-to-one sessions.

Teaching without extra tools

Manage

Assignments & Materials

Post assignments with due dates, collect submissions, grade with feedback and share files.

One place for coursework

Track

Dashboards & Progress

Personal dashboards show progress rings, upcoming classes, what's due and latest grades.

Everyone knows where they stand

Connect

Discussions & Messages

Class discussions, direct messages, notices and notifications keep the cohort connected.

An active learning community

Build

AI Course Builder

Teachers draft notes, quizzes and exams with AI, import curricula, and publish in minutes.

Hours of prep saved weekly

FLEX PROGRAMS (OPTIONAL)

Data Analyst • Data Scientist • Cloud • Cyber Security • Generative AI • Software Engineer • and more

SECURITY

Role-based access • Row-level security • Verified sign-up

TOOLS

Python • SQL • Excel • Power BI • Java • JavaScript • React • PHP • and 30+ more

ACCESS

Any browser • Mobile friendly • Light & dark mode • Guided tours

LABS

Code sandboxes • SQL IDE • Spreadsheet • Web • Data Prep • Writing

AI

Lesson & quiz drafting • Challenge grading • Class summaries • Library assistant

BUILT FOR EVERY ROLE

One platform, **three experiences**

Each person signs in to a workspace designed for their job — with exactly the access their role needs.

Students

Learn at your own pace, practice with real tools, and get feedback from teachers and AI.

- ✓ Personal dashboard & progress
- ✓ Lessons, labs & runnable code
- ✓ Quizzes, exams & challenges
- ✓ Live classes & 1:1 meetings
- ✓ Discussions & messages
- ✓ Pick up where you left off

Teachers

Teach, assess and support every learner from one dashboard — with AI doing the heavy lifting.

- ✓ Teaching dashboard & Teach mode
- ✓ Live classes & meetings
- ✓ Assignments, exams & grading
- ✓ Challenge review with AI scores
- ✓ Student progress & reviews
- ✓ AI-assisted course builder

Administrators

Run the campus: programs, people, enrollment and access — with full control and visibility.

- ✓ Manage programs & content
- ✓ Manage staff & roles
- ✓ Admissions & enrollments
- ✓ Student & account management
- ✓ Packages & online payments
- ✓ Role-based security

YOUR PROGRAMS + FLEX PROGRAMS

Your curriculum first. **Flex Programs optional.**

FOR SCHOOLS

Import your own programs

Each school brings the programs it designed for its own students — upload your syllabus or curriculum files and AI drafts the modules, chapters, notes and quizzes for your teachers to review and publish.

Curriculum import AI drafting Course builder

FOR INDIVIDUALS • OPTIONAL

Flex Programs

Aicloud's ready-made career programs and tool courses are optional — for individuals and graduates who aren't registered in any college but want job-ready skills.

20 career programs 39 tool courses Free tool trial
